Wyld's Scripture Atlas.

ADVERTISEMENT.

THE chief characteristic of the present Work is the fulness and completeness of the illustration which it furnishes of the various localities of the Sacred Narrative. It consists of a Series of Maps and Plans which embrace the entire extent of the regions referred to in the Bible, from the Holy Land to the farthest confines of "the East" on the one hand, and to the shores of that ocean which marked the ancient limits of Western discovery on the other. Thus, not only have Canaan and Egypt, Mesopotamia and Chaldea, Armenia and Assyria,—the scenes of the principal events of Sacred

history,—their correspondent delineations in these pages, but those more distant and less known regions (which though only of incidental mention, are yet full of the deepest interest to the reader of the Bible,) as Ethiopia and Arabia, Sheba and Tarshish, have each such geographical illustration as the most erudite and laborious researches have been capable of giving. In like manner, the period of time to which the Maps refer is coincident with the entire extent of history, embraced both in the Old and New Testaments, commencing with the supposed site of the Garden of Eden, and the first dispersion of the families of mankind after the deluge, and terminating with the preaching of the Gospel by the Apostles among the nations of Asia Minor, and the countries of southern Europe.

Palestine itself, the scene of so many wonderful and Sacred events, claims naturally the largest share of illustration, and hence the student is herein supplied, not only with Maps which exhibit successively its condition at different epochs, but also with a separate Map of the territories possessed by each Tribe, on a scale so greatly enlarged as to admit of a minute delineation of the numerous interesting localities of Jewish history. The Reader of the Bible may here trace the wanderings of the early patriarchs of the Hebrew

race, mark the traditional sites of their encampments and dwelling-places, or the hallowed spots in which their remains reposed in death, and note the reputed scenes of the numerous battles and other thrilling events which impart so much of human interest to the inspired records. It is believed that even in the present age of critical (and often of sceptical) inquiry, these qualities will be found to possess sufficient attraction for the simply devotional readers of the Bible, to justify the Publishers in the reissue of a work which thus identifies locally every place mentioned in the Sacred Narrative, and exhibits with topographical precision at least the supposed scenes of the most deeply-impressive events in the history of mankind. In its copiousness of illustration in these regards, the present volume may indeed justly claim to be, not so much an Atlas of Sacred Geography, in the strict sense of the expression, as a *Geographical and Topographical Commentary* upon the entire Scriptures.

The Publishers feel pleasure in drawing attention to the copious Index of words attached to the Work, in which every place mentioned in the Bible is identified by Latitude and Longitude, and referred to the Map in which it will be found. The Classical and Modern Names, where known, are also added, and distinguished by different characters of type, and a reference is given in every in-

stance to one of the texts of Scripture in which the place is mentioned. The care which has been bestowed upon its compilation constitutes this a valuable Appendix to the volume, and will, it is confidently expected, assist in rendering the present Atlas a permanently useful as well as attractive companion to the Biblical student.

J. Weyld del.

Note. AMERICA most probably was peopled from Siberia. The distance between the two continents in 65° N. Latitude does not exceed 20 miles, in a lower latitude a chain of Islands reaches - almost from one coast to the other. The inhabitants of the opposite coast resemble one another in their features, complexion, manners habits and customs. Their language indeed is different, but we are not sufficiently acquainted with this to say whether the roots of the language spoken in that part of America may not have a near affinity with those of the Asiatic languages. The result is that different families or tribes of wandering Tartars probably migrated across Bherings Strait and gave a beginning to population in the American continent.

NOTE.

This country was necessarily called by several names: 1. The Land of Canaan (in the sense of the word that first pointed it out) before the time of the Patriarchs who inhabited the sea coast; 2. The Land of Promise, because God promised it to Abraham and his descendants; 3. The Land of Israel, because the Israelites having obtained possession of it; 4. The Land of Judah, from that tribe which was the most considerable, at the time of the Jews; and 5. The Holy Land.

KINGDOMS OF ISRAEL & JUDAH.

British Statute Miles.
5 10 20 30

NOTE

The extreme folly of Rehoboam's conduct upon his ascending the throne of Israel (1st of 1st chapter) of the tribes revolt immediately, and they chose Jeroboam for their King. Two tribes only remain, those of Judah and Benjamin, remained faithful to Rehoboam. These two kingdoms were termed, that under Rehoboam, and his successors was called the kingdom of Israel; and that under Rehoboam and his successors was called the kingdom of Judah. The capital of the latter was Jerusalem which had been the seat of government since the eight year of David's reign. The capital of the former was at Shechem, then Tirzah, and afterward Samaria, the principal city of the tribe of Ephraim, where this kingdom is also sometimes called the kingdom of Samaria, and sometimes the kingdom of Ephraim.

NOTE.

Tyre is supposed to have been originally built by a Colony of Sidonians (Isaiah 23:2) on the peninsula the ruins whereof are still remaining by the name of Tulo Tyrus or Old Tyre. The siege of Tyre (101 B.C.) is one of the most remarkable recorded in history. For 13 years the inhabitants defied the whole force of Nebuchadnezzar and though that Monarch was at length obliged to raise the siege he had nothing but an empty city before him. The inhabitants retired to an island about half a mile distant from the shore, and built a new city, which after the destruction of the old town submitted to Nebuchadnezzar to be appointed Viceroy over it. When Alexander the Great invaded Syria (332 B.C.) he attempted to enter the city of Tyre, but being opposed by the inhabitants he resolved to reduce it by force which he accomplished after a siege of seven months.
